Everett Massachusetts Police Department

Safe Watch Program

The Everett Police Department is committed to the safety of our residents who may have a disability or condition which would cause them to wander from their safe environment. With this in mind, the Everett Police Department has initiated a Safe Watch Program designed to proactively gather pertinent and recent information on the individual so that, if a person should go missing, we are prepared immediately to begin an informed search, deploying resources constructively with the best chance of returning these individuals to their safe environment as quickly and safely as possible. Responsible family members or caretakers are encouraged to make use of this program by filling out the form below, providing a photograph and updating the information with the police department as necessary.

Date of Form Completion: Form Completed by:

Fill out about person you want to enroll in the Safe Watch Program
